AREAS OF EXPERTISE

Clinical Project Management

From start to finish, our services range to help you achieve maximized project performance, better-quality data, product safety and subject rights. Within Phases I-IIIb of each clinical trial, we manage:

- ✓ Project planning, budget management and milestone delivery
- ✓ Oversight of GCP compliance, relevant SOPs, and regulatory requirements
- ✓ Primary liaising between Company and Customer per a mutual contract
- ✓ Third-party communication and vendor management
- ✓ Risk mitigation and contingency planning

Clinical Operations Consulting

With over 50+ completed projects, our expertise aligns with any clinical study to provide strategic planning, coordination, and insight into a specific subject matter. Supporting the operational and business development side of your trial, we consult in:

- ✓ CRO and third-party selection through RFIs and RFPs
- ✓ Performance analysis and progress deliverables
- ✓ Optimized project-based resource management
- ✓ Budgeting and forecasting

Clinical Project Manager development

We know that leadership skills are essential in the development of clinical projects. These Project Managers (PM) should behave as the CEO of your program. We work with you to:

- ✓ Achieve maximum PM performance
- ✓ Develop a fortified mindset and clinical approach
- ✓ Consolidate budget management and finance knowledge
- ✓ Strengthen PM leadership between Team and Customer

Bid Defense Meeting

As an opportunity to demonstrate that your Project Manager is an expert in their field, we develop and adapt our training based on your experience and needs to:

- ✓ Teach a clinical PM how to prepare for a Bid Defense meeting
- ✓ Assist in developing professional presentation skills
- ✓ Improve and sharpen the overall PM skill set
- ✓ Implement Bid Defense guidance trainings and best practices
